1937.

P. H. BURNETTE,
Notary Public, First Judicial Circuit.

WEDNESDAY, APRIL 17, 1937.

What has become of the Tax Com-
mission resolution?

Pass the Primary law. It repre-
sents a party promise and protects
honest government.

Extreme follies that force Federal
control of sanitation may in the
course of time be offered as blessings
in disguise.

If party-pledges are made with the
reservation of conscience that they
may be broken at any time, what's
the use of party-pledges?

Los Angeles kickers are denying
all their adverse comment to the
steamship in which they traveled.
They have only pleasant things to
say of Hawaii. And twice over that.

Was the attendance at the Mer-
chants' Association meeting of yes-
terday an indication of the enthu-
siasm among mercantile men over
the proposed steamship line between
Honolulu and Los Angeles?

Cuba's drought is one of the blen-
dings in disguise that the prophet who
told of higher-priced sugar did not
figure on. This should be a guaran-
tee that four cents is not necessarily
the top-notch limit for this season.

TIME TO CHECK FOLLIES.

The action of the United States
Marine Hospital Service this morn-
ing ought to bring some people of
the town and some legislators suf-
ficiently to their senses to enjoy a few
lucid moments.

It is well to remember that Hawaii
may go off on as many idiotic tan-
gents as it pleases, but it must pay
the price on each and every occasion
in an increased feeling of distrust
among those responsible for keeping
the avenues of commerce clear, and
the mainland protected from the nat-
ural result of a community gone drift
in its indifference to modern science
and high appreciation of fakes and
fancies.

The Bulletin does not believe that
recent action taken by representa-
tives of the people has had any di-
rect influence on the Federal officials.
These officials must consider exact
conditions and be guided by the com-
mon-sense orders of the National De-
partment backed by official sense of
responsibility.

It stands to reason, however, that
as Federal officials contemplate the
folly put on record during the last
few weeks, their sense of duty must
cause them to doubt the stability of
local intelligence, and consequently
become more strict in the enforce-
ment of Federal regulations. To do
otherwise would subject them to the
charge of serious and inexcusable
dereliction.

Isn't it about time for the people
of this Territory to recall the fact
that the United States Government
and the American people expect more
sensible action from Hawaii than is
found in reduction of funds for com-
bating contagious diseases danger-
ous to commerce, and at the same

time stampeding in a wild race to
glorify intangible dogmas and
quacks?

If the business-men of the city
have not also gone crazy, it is about
time they stirred themselves a bit
and made it forcibly known that they
also are supposed to have some rep-
resentation in and some considera-
tion from the Legislature.

HAWAII AND "US"

[Los Angeles Times]

Enterprising of the Los Angeles
Chamber of Commerce have ever been
looked for bringing results. Many or-
ganizations of this nature are famed
for acquiring and talking and boast-
ing, but never doing. It has been the
habit of the Los Angeles Chamber to
"go there." With regard to Hawaii,
it is not only a case of there and back,
but of assurance that a substantially
financed steamship line between Los
Angeles (San Pedro Harbor) and Ho-
nolulu is likely to be established as
the first-fruit of Commodore Wiggins's
excursion.

This is a well considered and logical
project with conditions amply war-
ranteeing the investment and enough
business in sight to promise success.
The sea route from Honolulu to San
Pedro is the short route and the fa-
vored one. If properly invited our
national commerce with our island
territory will follow this direct line.
This traffic is already great and must
grow enormously. As for Southern
California, the Hawaiians need our
boys, girls, oranges, lemons and other
products and we are hungry for their
fruits. The passenger travel in both
directions is increasing. The business
for the proposed new steamship line
is visible to the naked eye.

On such a rational and satisfying
basis, this project fathomed by our
Chamber of Commerce, must, it seems
to us, be a winner. In promoting the
enterprise the Chamber has made one
of its greatest mistakes for Los Angeles
and San Pedro Harbor.

HONOLULU WEATHER

April 17.

Section Director, U. S. Weather Bureau.

NEW ORLEANS STARTS

ITS ANNUAL FIGHT
AGAINST MOSQUITOES

Galveston, Tex., March 30.—At
the meeting of the Board of City
Commissioners, City Health Of-
ficer C. W. Trueheart secured per-
mission to advertise for 120 bar-
rels of crude carbolic acid for use
during the coming summer. This
acid will be one weapon with
which to combat mosquitoes dur-
ing the warm weather, and will
also greatly assist in diminishing
the plague of house flies in the
city.

An average of 160 barrels of
carbolic acid is required each
year to fight the mosquitoes, be-
sides a large amount of crude ker-
osene, which is distributed over
all open water that cannot be
drained. The pools of water in
gutters are excellent breeding
places for mosquitoes, and these
little pools, as well as all larger
ones, are treated with crude oil.

Dr. Trueheart says: "The con-

WORK OF HOUSE WAS

MOSTLY ROUTINE

Salary Appropriation
Bill Passes Second
Reading

HOUSE

47th Day—Afternoon Session.

The work of the House yesterday af-
ternoon was mainly of a routine char-
acter and there was nothing that came
up to cause much debate. One bill, the
one relating to the location and estab-
lishment of laundries, was put through
its final reading and sent to the Senate.
Three new bills, a concurrent and a
joint resolution were introduced. The
Territorial Salary Appropriation Bill
was reported from Committee of the
Whole and passed second reading. A
large number of bills were reported
from various committees.

LAUNDRY BILL.

House Bill 211, relating to the loca-
tion of laundries, the intent of the bill
being to allow the erection, under the
rules of the Board of Health of wash-
houses other than those owned by the
Government, passed third reading by a
vote of 16 to 11.

SUPERVISORS MEETINGS.

Senate Bill 97, changing the date of
Supervisors meetings to the first Wed-
nesday after the fifth of each month,
met with strong opposition. Rice
moved to table the bill, but the mo-
tion was lost and the bill was deferred
until today.

SECOND READINGS.

The following bills came from the
Printing Committee and were carried
through second reading:

House Bill 221, to abolish the office
of Commissioner of Public Instruction.

House Bill 222, relating to and
amending the statute regulating trust
companies.

House Bill 223, to limit the time with-
in which actions for compensation for
damages or injury to persons or prop-
erty may be instituted.

House Bill 224, relating to regulating
the business of carriers and horse-
shoers.

TWO FISCAL BILLS.

Two new bills were introduced by
Rice and passed first reading by title.

One relates to the Registrar of Pub-
lic Accounts, authorizing him in the
absence of the Treasurer to exercise
the powers and authority of the latter
official.

The other bill authorizes the Treas-
urer to appoint fiscal agents to facili-
tate the sale, purchase and redemption
of Territorial bonds and the payment
of interest thereon.

PUNCHBOWL PETITION.

Castro introduced a concurrent res-
olution to the effect that it is the ear-
nest wish of the Legislature that Con-
gress, either by special legislation or
by legislation that would cover all
similar cases in the Territory, shall
enact a law amending the laws of the
Territory so as to give to the Punch-
bowl dwellers the right of purchase or
release of their land.

The resolution was adopted.

CORPORATION LAW COMMISSION.

Rawlins introduced a joint resolu-
tion calling upon the Governor to ap-
point a commission of three members
to be known as the Corporation Law
Commission, to examine and investi-
gate the corporation laws of the Terri-
tory and consider their legal opera-
tion and effect, the manner of their
enforcement and general adaptability
with respect to existing conditions, and
consider ways and means for the re-
vision and improvement of said laws
as may be deemed advisable. The
Commission shall make report of their
work to the Governor not later than
July 1, 1938.

The resolution passed first reading
by title.

Rawlins introduced a bill to pro-
vide compensation for the above Com-
mission.

The Judiciary Committee recom-
mended the passage of House Bill 95,
to provide exemption of the family
homestead from forced sale. The re-
port was adopted.

The same committee recommended
the tabling of House Bill 165, relating
to impeachment, on the ground that
there should not be a general appeal

A CASE OF NERVOUS PROSTRATION

Relieved In a Remarkable Manner By Pe-ru-na.

Pe-ru-na Is a Systemic Catarrh
Remedy.

Especially Adapted to Cases of
Nervous Prostration

Caused By Overwork, Mental Strain
or Extreme Summer Heat.

INDIGESTION
CAUSES
WEAKNESS.

assimilation is also
affected, and as a
result the body does
not receive the
nourishment it should. Lassitude,
weakness, brain fog, loss of flesh and
nervous prostration are the natural
results.

What is needed is a remedy that will
restore the digestive organs to their
normal condition.

Such a remedy has been found in
Peruna. It has proven itself of great
value in thousands of cases of this
kind.

Its action has been remarkable at
times in restoring some patients who
had given up all hope of recovery.

But there is nothing strange about
Peruna's action. It simply tones up
the mucous mem-
branes of the organs
involved, restoring
them to their
normal conditions and leaving Nature
to perform her duties unhindered.

That person who has sound, healthy
mucous membranes lining the entire
digestive tract is well-guarded against
the usual summer ailments.

Peruna is the means whereby to at-
tain this most desirable condition.

If you suffer from any of the above
mentioned symptoms, try a bottle of
Peruna.

One bottle of this remedy is often
sufficient to convince any one of its
merit as a safe and reliable remedy for
all catarrhal conditions.

We have many letters of gratitude re-
ceived from persons who have expe-
rienced its benefits.

These testimonials are proof to us
that Peruna has not failed in the mis-
sion for which it was intended, that
of relieving suffering and restoring
health.

For special directions everyone should read "The Life of Life," a copy of which surrounds each bottle. Pe-
ru-na is for sale by the following druggists and will supply the retail trade in Honolulu, Hawaii: Benson,
Smith & Co., Hobron Drug Co., Honolulu, Hawaii.

IN latitudes where warm weather is
of long continuance, the inhabitants
become more or less accustomed to it.

In Temperate Zones, however, where
the change from winter to summer is
great, the system is sometimes poorly
prepared to meet the exigencies of hot
weather. This is the cause of much
sickness.

Stomach catarrh, indigestion and dys-
pepsia are not among the least of sum-
mer ailments.

When the digestion is disturbed, the

assimilation is also
affected, and as a
result the body does
not receive the
nourishment it should. Lassitude,
weakness, brain fog, loss of flesh and
nervous prostration are the natural
results.

What is needed is a remedy that will
restore the digestive organs to their
normal condition.

MR. P. BRIEN, 23 Third Street, Limolou, Quebec.

"The fatigues entailed by my duties as accountant began to weaken my
system about a year ago. I felt that I would not long be able to with-stand
the severe strain upon my nerves, as, a thing unknown to me before, I would
long for office hours to be over in order to rest.

"I gradually grew weaker and a few months later my sight was impaired.
I then broke down completely and was obliged to take to my bed. I was also
suffering from palpitation of the heart.

"After a few weeks' treatment by a local physician, I was in the same
critical condition and as the doctor held out no great prospects for me, I de-
cided to experiment on myself.

"I took several remedies advertised as tonics, but did not derive any benefit.
Peruna was then given a trial, and before I had taken it a week I felt my
condition improving. After a few weeks more had elapsed, during which
time I followed the directions carefully, my shattered nervous system be-
came firmer, my sight stronger and I hoped to be out soon again.

"My expectations were realized, for in three weeks I assumed my duties as
accountant at the office.

"Peruna certainly worked wonders on my system, and for persons run-
down from overwork, I believe it is the most efficacious tonic."

acts as a good, true friend and is the
tonic needed.

"I have tried it for months and am
only too glad to acknowledge it as a
true, loyal standby in times of trouble.
I do not hesitate to recommend it to all."

Completely Run Down—Pe-ru-na
Restored to Health.

Mrs. J. Colson, 831 Notre Dame street,
Maisonneuve, Montreal, Can., writes:

"Last winter I contracted a severe
cold which affected my head and throat
so I had to take to my bed and could
not do my housework. A friend ad-
vised me to get a bottle of Peruna, and
I procured a bottle. I felt better from
the start. I have taken three bottles
and am a new woman. My daughter's
system was also completely run down
and after using Peruna she is again re-
stored to health."
